

Certificate of Analysis

Size: 100 µg
Lot: UQS0319121

Description

Source	Monoclonal Mouse IgG _{2B} Clone # 268014
Purification	Protein A or G purified from hybridoma culture supernatant
Species Reactivity	Human
Immunogen	<i>E. coli</i> -derived recombinant human NF-L Met1-Asp338 Accession # P07196
Specificity	Detects human NF-L in direct ELISAs and Western blots. In direct ELISAs and Western blots, no cross-reactivity with recombinant human (rh) NF-H or rhNF-M is observed.
Formulation	Lyophilized from 200.0 µL of a 0.2 µm filtered solution in PBS, pH 7.4 with 5 % Trehalose.

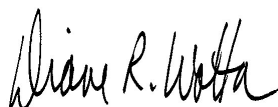

Applications

Please Note: Optimal dilutions should be determined by each laboratory for each application. Datasheet available on the website.		
	Recommended Concentration	Sample
Western Blot	1 µg/mL	Recombinant Human NF-L
Immunohistochemistry	3-25 µg/mL	Immersion fixed paraffin-embedded sections of human spinal cord and immersion fixed paraffin-embedded sections of human brain (substantia nigra)

Preparation and Storage

Reconstitution	Reconstitute at 0.5 mg/mL in sterile PBS.
Shipping	The product is shipped at ambient temperature. Upon receipt, store it immediately at the temperature recommended below.
Stability & Storage	Use a manual defrost freezer and avoid repeated freeze-thaw cycles. 12 months from date of receipt, -20 to -70 °C as supplied. 1 month, 2 to 8 °C under sterile conditions after reconstitution. 6 months, -20 to -70 °C under sterile conditions after reconstitution.
Date Bottled	12/30/2019

It is hereby certified that the above product has been tested for proper performance and function under our established Quality Control testing criteria.
It is authorized by our Quality Assurance program to be released for sale.
