CERTIFICATE OF ANALYSIS

Product Name: Monoclonal anti-neurofilament light (NfL), human
Name on the label: Anti-NfL
Cat.#: 4NF3
MAb: NF36
Description: Recombinant monoclonal antibody expressed in a mammalian cell line. Full-size IgG sequence derived from rabbit B cells.
Immunogen: Recombinant human NfL
MAb isotype: IgG
Specificity: Human NfL, cross-reacts with bovine NfL
Purification: Protein A chromatography
Presentation: PBS, pH 7.4, 0.09 % sodium azide (NaN₃)
Appearance: Clear or slightly opalescent solution
Store at: +4 °C (+2 ... +8 °C allowed)
Shipping condition: With gel ice

Lot number: 24/10-NF3-36
Concentration: 5.2 mg/ml
Conc. determined by: Spectrophotometry at A280 using extinction coefficient 1.4
Purity: >92%
Purity determined by: HPLC
Expiry date: 2026-10

Material safety note: This product is sold for research or further manufacturing use only. Standard Laboratory Practices should be followed when handling this material.
Product contains sodium azide as a preservative. Although the amount of sodium azide is very small appropriate care must be taken when handling this product.

Print Date: 2025-04-04

CERTIFICATE OF ANALYSIS

Product Name:	Monoclonal anti-neurofilament light (NfL), human
Name on the label:	Anti-NfL
Cat.#:	4NF3
MAb:	NF71
Description:	Mouse monoclonal antibody produced in bioreactor. Hybridoma clone derived from hybridization of Sp2/0 myeloma cells with spleen cells of Balb/c mice.
Immunogen:	Recombinant human NfL
MAb isotype:	IgG2b
Specificity:	Human NfL, cross-reacts with bovine NfL
Purification:	Protein A chromatography
Presentation:	PBS, pH 7.4, 0.09 % sodium azide (NaN ₃)
Appearance:	Clear or slightly opalescent solution
Store at:	+4 °C (+2 ... +8 °C allowed)
Shipping condition:	With gel ice
Lot number:	24/05-NF3-71
Concentration:	5.2 mg/ml
Conc. determined by:	Spectrophotometry at A280 using extinction coefficient 1.4
Purity:	>92%
Purity determined by:	Gel electrophoresis and gel scanning
Expiry date:	2026-05
Material safety note:	This product is sold for research or further manufacturing use only. Standard Laboratory Practices should be followed when handling this material. Product contains sodium azide as a preservative. Although the amount of sodium azide is very small appropriate care must be taken when handling this product.

CERTIFICATE OF ANALYSIS

Product Name:	Monoclonal anti-neurofilament light (NfL), human
Name on the label:	Anti-NfL
Cat.#:	4NF3
MAb:	NF79
Description:	Rat monoclonal antibody produced in bioreactor. Heterohybridoma clone cell line derived from hybridization of Sp2/0 myeloma cells and spleen cells of rat.
Immunogen:	Recombinant human NfL
MAb isotype:	IgG2b
Specificity:	Human NfL, cross-reacts with bovine NfL
Purification:	Protein A chromatography
Presentation:	PBS, pH 7.4, 0.09 % sodium azide (NaN ₃)
Appearance:	Clear or slightly opalescent solution
Store at:	+4 °C (+2 ... +8 °C allowed)
Shipping condition:	With gel ice
Lot number:	24/04-NF3-79
Concentration:	5.6 mg/ml
Conc. determined by:	Spectrophotometry at A280 using extinction coefficient 1.4
Purity:	>92%
Purity determined by:	Gel electrophoresis and gel scanning
Expiry date:	2026-04
Material safety note:	This product is sold for research or further manufacturing use only. Standard Laboratory Practices should be followed when handling this material. Product contains sodium azide as a preservative. Although the amount of sodium azide is very small appropriate care must be taken when handling this product.
